

EDUCATION PRACTICE PROJECT

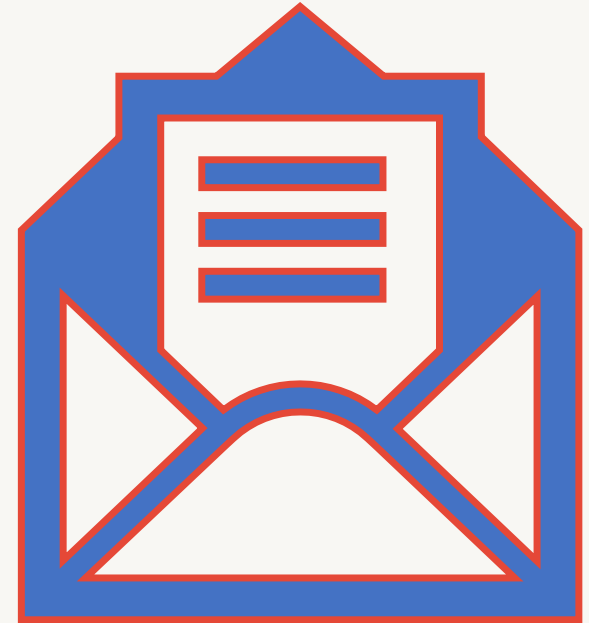

PROJECT NAME:

TeleGram bot

about zodiac sign

INTRO DUCTION

As a project, I decided to choose a telegram bot. My bot on the signs of the zodiac. Its essence is that it will give out a horoscope for the day when choosing your zodiac sign

PROGRAMMING LANGUAGE AND MAIN GOAL

The main goal of the project is to create an unusual bot that is created more for entertainment than for serious work with it. I decided to choose this type of bot because this is my first project and in any case I will learn some experience from it

My Full progress:

9:11-Selected a theme

10:11-Thought about the idea

11:11- Was looking for information & registered a bot

12:11-Chose language, learned some more

13:11-Worked with Windows PowerShell and connected the libraries

16:11-Started preparing buttons for my bot

17:11-Added visual parts for buttons

18:11-Teach him to respond to a request

19:11-Set the response method for the request

20:11-Optimized my code

[illegible]
